

Zama Housing Times

An Update of Housing Issues and Happenings

Do It Yourself..... Camp Zama Community Self-Help Program

(Continued from page 1) The goal of the Self-Help Program is to allow Family Housing and Unaccompanied Personnel Housing occupants to accomplish as much maintenance and repair as is prudently possible so as to relieve highly qualified tradesmen to take care of the more complex facility maintenance and repair problems on the installation.

The Self-Help Store is the issue point for supplies, materials and equipment to be used for maintenance and repair of the housing real property assets.

The focus of the Self-Help is maintenance and repair. All projects are subject to Housing Division's approval. This is where self-help can make a difference. So stop by and tell us how we can better serve you. Suggestions are always welcome.

The Self-Help Store is stocked with many items that can help you with your projects. The stores are located at all three housing areas.

Fence Construction

Fences are allowed for Family Housing units, but at the occupant's expense. However, the only authorized fence is a chain-link (galvanized or vinyl coated). A memorandum requesting to construct a chain-link fence must be submitted to the Housing Management Division, ATTN: Chief, Facilities Management Branch requesting approval to construct a chain-link (galvanized or vinyl coated) fence. A diagram showing the dimensions and the location of the chain-link fence will be attached to the request. Chain-link fences shall not interfere with the accessibility for refuse removal or utility systems, or neighbors egress. Chain-link fences shall be free of any hazardous or unsafe protrusions such as nails, clipped and open end wires, and sharp edge angles.

For additional information and guidance contact the Facilities Management Branch, Housing Management Division at 263-5859
